730-652	Double Cord Blood Unit Procurement (both Units)	20,000.00
730-654	Cancellation Fee prior to the CBU removed from Inventory	1,000.00
730-655	Cancellation Fee after the CBU removed from Inventory	15,000.00
720-697	Graft Transport Expenses	Actual cost

## Notes:

- (1) The fee for the blood sample/DNA specimen procurement for donor verification typing **does not** include infectious disease testing. Specimen shipment is free of charge when standard courier service is used within Europe. The fee for blood sample/DNA specimen procurement for donor verification typing **includes** a Health and Availability Check-HAC.
- (2) IDM testing is charged as separate fee from the sample/specimen procurement. All VTs are tested for IDMs. IDM testing includes: anti-HIV I-2, HTLV I&II, Hepatitis B virus (HBsAg, Anti-HBsAg, Anti-HBc), Hepatitis C virus (HCV, anti-HCV), CMV IgG and IgM, Syphilis and ABO -Rh testing.
- (3) In the case of a special courier transport request (other than the standard courier) and in shipments out of Europe a special courier transport fee will be applied.
- (4) If a WU is cancelled due to patient reasons after the donor undergoes medical examination, the cancellation fee is based on costs incurred of medical examination of the donor. Requesting centers cancelling after the donor has commenced mobilization (in case of the PBSC donation) should note that additional fees will incur i.e. 975 Euro G-CSF injections per donor.
- (5) First IDMs testing or sample procurement for IDM testing and first pre-collection samples at workup will not be charged; each thereafter will be invoiced separately.
- (6) HAC-Informative conversation including completion of Health History Questionnaire (HHQ) and confirmation that the potential donor is still willing and available to donate and in good health.
- (7) If a WU is canceled due to donor reasons (medical deferral, etc), no fee is applied.

## General Terms:

- Full reimbursement for all services will be provided in case of discrepancies in typing results provided.
- Sample shipment should not exceed 50ml of blood. CYBMDR requires reporting of the results of the confirmatory typing and a statement if the donor is of interest to the TC within four weeks.
- WMDA recommendations apply as regulations for all CYBMDR registry operations.

## Terms of Payment

The total amount is due within 30 days.

- Please quote our invoice number(s).
- Payment must be made by money order to (or a bank draft, expressed in EURO for the full amount invoiced free of bank charges):
