

OFFICIAL DOCUMENTS DONOR

The WMDA (World Marrow Donor Association) develops template forms that organizations can use to cover the search process through the delivery of the stem cells at the transplant facility. All forms are reviewed on a yearly basis and changes are implemented if necessary (current version posted on the www.wmda.info website).

MDPB uses WMDA forms and supplementary MDPB templates.

Below you will find all forms to be used by the MDPB coworkers (forms in fillable and savable format – current versions posted on <https://www.stemcelldonor.be/professionals/>)
