(1) charged only if requested by TC.

In all cases, donor physical exam and information session may be charged extra.

For any other services offered, price will be communicated upon request.

(2) Additional transport costs may be charged when a blood sample is required to validate the donor, in order to carry out additional tests (Dengue, WNV, Zika, Chikungunya, TBEV...). These costs are for transporting the blood sample to our dedicated laboratory in France, which can carry out these tests.

As the Agence de la biomédecine issues a single invoice for requests for blood samples including collection and transport, we will only send you our invoice once our carrier's invoice has been processed (invoicing of transport costs at cost price).

The total amount is due within 30 days after reception of the invoice.

In the event of non-payment, the Agence de la biomédecine reserves the right to apply its prepayment procedure.

All invoices should be paid free of bank charge. Payment must be made by Wire Transfer in EUROS :
