

# Statistical data and reports

Find here the links to statistical information. Please read [processing reports](#) for more information.

Link	Content	Remarks	Formats
<a href="https://statistics.wmda.info">statistics.wmda.info</a>	<ul style="list-style-type: none"> <li>• Donor/CBU counts per ION (Pool)</li> <li>• Typing percentages</li> <li>• Date last file</li> <li>• Accreditation status ( Please note the accreditation status refers to the listing organisation, and not to the accreditation status of the affiliated organisations. For specific information of the accreditation status of the affiliated organisations, you should consult the <a href="#">Database</a> page.</li> </ul> <div style="border: 1px solid #ccc; padding: 10px; margin-top: 10px;"> <p><b>Frequently asked questions</b></p> <p><b>What is the exact last filedate?</b></p> <p>The last filedate is shown as the date the data has been imported in the new pipeline.</p> <p>All existing dot20 files have been imported at 2018-04-05 and 2018-04-06.</p> <p>For precise identification of the last filedate of these dates, you will need to look at the <a href="#">archived version of the previous data</a></p> <p><b>Was the data delivered by XML or Dot20 ?</b></p> <p>As of 26 of July 2018 we do not provide upload format per registry.</p> <p>All registries have been set to deliver in XML format.</p> <p>Until the first physical XML upload, data may still origin from dot20 format.</p> </div>	Updated once a day, after export  Columns are sortable	xls, csv
<a href="https://statistics.wmda.info/rawstats.txt">https://statistics.wmda.info/rawstats.txt</a>	Raw database counts, Listing organisation IONS and POOL only	Unformatted, updated every hour	txt
<a href="https://statistics.wmda.info/totals.php">https://statistics.wmda.info/totals.php</a>	Totals of donors, cords, and countries		JSON
<a href="https://statistics.wmda.info/spark/">https://statistics.wmda.info/spark/</a>	Trend analysis for donor/cbu counts. Shows the trend of the number of donors for last 30 days  Delta's are between first and last entry You may hover over the image to see the period.  <i>(note : as of jan 2019 we have restarted the counts)</i>	Up to 30 datapoints per ion	png, json
<a href="https://statistics.wmda.info/density/">https://statistics.wmda.info/density/</a>	<i>(please note that rendering is done in the browser, which may be slow)</i> Heatmap of the percentage of data elements that actually contain data.  The column headers are dates.  You may filter on <ul style="list-style-type: none"> <li>• Population (Donor/CBU)</li> <li>• Fieldtypes (show any field, only donor fields, only CBU fields, or only those available in both types of records)</li> </ul> You may choose different formats / color codings.  You may switch between % or absolute values.  You may download the raw dataset.  These data are generated based on the FULL dataset, so not per registry.	Measured per week, for the last 90 days.	csv

There is an [archived version of the previous data](#) (dot20 only) available.
