

Timetable updated

UPDATE

The countdown has begun to the implementation on April 8th of the new data submission process for listing donors and cord blood units in the Search & Match Service (BMDW).

We elaborated the steps and the activities necessary to allow acceptance of files in the new XML format from your organisation.

Timeline

We have updated the timetable to illustrate the key dates and activities for the migration from the old data format to the new XML format .

Please visit the [Updated Transition information & Timelines](#) page for more information.
