Condition

Mild, occasional episodes of back pain related to exertion (incl sciatica). Minimal impact on activities of daily living and occasional use of medication

Individual at risk

Donor

Guidance at RECRUITMENT for adult volunteer donor (NA for maternal donor (cord blood donation))

ACCEPT

Guidance at CT/WORK-UP

ACCEPT, CONSIDER PBSC ONLY

Justification for guidance

Pain or underlying condition may be aggravated or triggered by collection, and particularly bone marrow collection. At CT/work-up stage evaluate for on-going symptoms. May be considered for PBSC only on a case-by-case basis. Inform transplant centre if medically suitable for PBSC only.
