

D4.1 Launch an online reporting system to report serious adverse events and reactions (unrelated donors)

Project details:

Project group:	Deliverable D4.1 (2019)		
Project group chair:	Esther Pustjens		
Project group members:	Thilo Mengling, Jo Wiersum, Mirjam Fechter		
Project office supporter:	Esther Pustjens and Lydia Foeken		
Project description:	A system hosted online that enables the rapid, accurate and complete reporting of serious adverse events and reactions affecting unrelated stem cell donors by member registries. This will provide information and insight that can be used to identify trends and patterns, which can be used to inform improvements to strategies, policy and practice that serve to minimise the occurrence of serious adverse events.
