

D3.2 Report on import/export and registry operations within EU Member States

Project details:

Project group:	Deliverable D3.2 (2019)		
Project group chair:	Esther Pustjens		
Project group members:	Monique Jôris		
Project office supporter:	Esther Pustjens and Lydia Foeken		
Project description:	A report surveying and assessing the import and export of stem cells across EU member states' borders, including current volumes, patterns and trends as well as information relating to quality and safety regulations and related operational processes. This report will be used to baseline and track improvements, as well as a resource to support EU member registries to implement good and best import/export practices that serve to improve efficiency and quality.
