Data quality reports

Introduction

WMDA provides Data Quality (DQ) reports starting from 19 Dec 2019 for evaluation/review. This is the first version of the DQ report per registry/CBB provided and distributed by WMDA. This report is officially distributed from 15 Apr 2020 , and is now a monthly distributed report on 15th of each month.

All members from donor registries or cord blood banks can request to receive this report for their own organisation or for other organization with permission. If you wish to receive the report, please email support@wmda.info.

See detail in the report explanation page.
